Dear Mr. Wilcks:

We want to thank the Carson Valley Chukar Club for their generous contributions to Nevada's wildlife resources by supporting the 10 projects you listed in your letter. The total of \$36,500 will facilitate the Department's habitat enhancement and upland game resource management programs significantly during the upcoming year and should provide benefits for wildlife for many years into the future. It is because of dedicated sportsmen like yourselves that we are able to accomplish so much for Nevada's wildlife resources!

If you could write a check to the Nevada Department of Wildlife for that amount, we can deposit it into our newly established Wildlife Trust Account where it will be earmarked for the specific projects delineated in your letter of August 1, 2011. The money cannot be transferred or used for any other purpose and an accounting of expenditures will be prepared annually to maintain transparency, so you will be able to see exactly where your donations were spent. Furthermore, this account cannot be used for overhead or other cost and your donations will only be used for those on-the-ground projects you delineated.

Thank you again! If you have any questions, please let us know.

Sincerely,

Dear Steve:

On behalf of the Nevada Department of Wildlife, I want to thank the Carson Valley Chukar Club for inviting some of our staff to attend one of your meetings to discuss the various upland bird related projects that our folks are planning to do during the next fiscal year. As always, it was great to visit with all of you and I believe we brought enough staff to adequately describe our plans and to answer questions concerning the upcoming projects as well as other NDOW related activities.

Furthermore, we greatly appreciate your generosity in agreeing to provide funding for eight of our projects. As I stated at the meeting that night, without the generosity of sportsmen's organizations like the CVCC, wildlife management in this country would not be able to keep pace with the challenges that we are faced with and our precious heritage would soon be lost. I hope that each and every member of your club, as well as all those who support your club, can feel a tremendous sense of pride in playing the role they do in today's wildlife management programs.

Thanks again for your generosity and we look forward to accomplishing great things with the funding you have provided.

Sincerely,
